What we want to achieve?

All communities have access to effective assistance and services.

Ultimately, we envisage a society where vulnerable communities can access the services they need from the Government of Pakistan, national NGOs and broader civil society. This ambition is reflected in the PHF vision statement. However, in the medium term, NGOs and other international humanitarian as well as development partners, have a key role to play in working directly, and with partners, to strengthen community's access to assistance and services.
