

Highlights

- Over 1 million people affected by heavy rains and floods across Pakistan, including 618 people died and 982 injured.
- Resurgence of strong monsoon currents and increased thunderstorms are forecast across Pakistan until 19 August, mostly affecting areas in the south. Chenab river is reportedly currently in high flood at Khanki, and additional rains may cause riverine flooding downstream in the coming weeks.
- A rapid multi-sectoral needs assessment has been launched in the 10 most affected districts of Balochistan, to enable a more informed and effective humanitarian response for people in need.
- The Government of Pakistan has exempted all local NGOs that have filed applications with Economic Affairs Division (EAD) from having to sign MoUs with the EAD to conduct flood relief, rehabilitation and reconstruction activities in flood-affected provinces across the country for six months (August 2022 to February 2023).

Possible Impacts

Pakistan Meteorological Department (PMD) has informed that a depression has developed in Arabian Sea which is likely to move west along Makran Coast. Due to this weather system monsoon currents are continuously penetrating southern parts of the country and another low pressure area is likely to approach Sindh on 16 August, under the influence of this system, following is expected: –

- Heavy rains may generate urban flooding in Islamabad, Rawalpindi, Peshawar, Nowshera, Mardan, Faisalabad, Lahore and Gujranwala from 14-16 August (Sunday to Tuesday).
- Heavy Rains may also generate urban flooding in Karachi, Thatta, Badin, Hyderabad, Dadu, Jamshoro, Sukkur, Larkana, Shaheed Benazirabad and Mirpurkhas from 14-18 August (Sunday to Thursday).
- Flash flooding is expected in Local Nullahs of Islamabad, Rawalpindi, Shakargarh, Sialkot, Narowal, Abbottabad, Mansehra, Dir, Karak, Lakki Marwat, Bannu and AJ&K from 15-16 August (Monday to Tuesday).
- Flash flooding is expected in Qila Saifullah, Loralai, Barkhan, Kohlu, Musakhel, Sherani, Sibbi, Bolan, Kalat, Khuzdar, Lasbela, Awaran, Turbat, Panjgur, Pasni, Jiwani, Ormara, Gwadar and Hill Torrents of Dera Ghazi Khan from 14-18 August (Sunday to Thursday).
- Rainfall may trigger landslides in AJ&K, Galiyat, Murree, Chilas, Diamer, Gilgit, Hunza, Astore, Ghizer and Skardu during the forecasted period.
- Fishermen are advised to remain cautious from 16-18 August (Tuesday to Thursday).
- Travelers and tourists are advised to remain cautious during the forecasted period.

HUMANITARIAN RESPONSE

Food Security, Agriculture and Livestock

Needs:

- Food or cash/voucher assistance (CVA) to reduce food consumption gaps, supporting the most affected and food insecure population while restoring livelihoods and resilience.
- Construction/rehabilitation of animal shelters and irrigation infrastructure and equipment.
- Protection of remaining livestock through provision of feed and vaccinations against Peste des petits ruminants (PPR), foot-and-mouth disease (FMD) and haemorrhagic septicaemia (HS).
- Provision of seeds to restart vegetable crops and support for long-term restoration of orchards.

Health

Needs:

- Provision of essential medicine, tents, blankets, medical equipment, face masks, hand sanitizers and mosquito nets.
- Strengthening disease surveillance in flood-affected districts and mitigating the outbreak and spread of diseases.
- Monitoring the health of the affected population.
- Provision of medicines and other medical supplies.
- Targeted repairs of health facilities.
- Support for integrated outreach activities such as medical practitioners, lady health visitors, medicines and transport.

Protection

Needs:

- Psychosocial support for the affected population.
- Establishment of referral pathways for gender-based violence (GBV) and child protection (CP) cases in displacement sites and targeted districts.
- Possible relocation to safe areas and referrals to Safe Shelters/temporary accommodation arrangements.
- Dignity Kits and other non-food items (NFI) for vulnerable households.
- Scaling up assessments to identify people who may have lost civil documentation.
- Scaling up detailed GBV/CP assessments and related capacities of partners.

Water, Sanitation and Hygiene (WASH)

Needs:

- More resources are needed to enable an effective and efficient WASH response. Available supplies are insufficient to cover all affected communities.

Nutrition

Needs:

- Some 71,376 children in Balochistan endure severe or moderate acute malnutrition (SAM/MAM).
- Around 11,600 pregnant and lactating women (PLW) in Balochistan require nutrition services.

Gaps:

- Nutrition services are only available in Afghan Refugee Response Plan (RRP) districts and do not overlap with the projected SAM, MAM and PLW caseload resulting from the floods: the gap is thus 100 per cent, for which some US\$3 million is required.

PHF MEMBERS' HUMANITARIAN RESPONSE

MUSLIM HANDS

Organization	Province	District	Items	Quantity	Beneficiaries
Muslim Hands	Balochistan	Kot Magsi of district Jhal Magsi.	Food parcels	573	5203
	Punjab	Tonsa Shareef, DG Khan	Cooked meal and clean drinking water bottles	500	
Muslim Hands	Balochistan	Quetta, Kech, Mach, Lasbella & Jhal Magsi	filtered water and food parcels	1403	1403
	Punjab	Taunsa Sharif @ DG Khan	Cooked meal and clean drinking water bottles	4090	4090
			Dry food parcels	200	
	Sindh	Keemari, Karachi, Thatha, Badin	filtered water and dry food parcels	2520	2520
			Mosquito nets	300	
			04 Free Medical camps & medicines		1903

Helping Hand for Relief & Development
