

Highlights

- In the Last 24 hours 41 people were killed and 11 injured.
- Resurgence of strong monsoon currents and increased thunderstorms are forecast across Pakistan until 19 August, mostly affecting areas in the south. Chenab river is reportedly currently in high flood at Khanki, and additional rains may cause riverine flooding downstream in the coming weeks.
- A rapid multi-sectoral needs assessment has been launched in the 10 most affected districts of Balochistan, to enable a more informed and effective humanitarian response for people in need.
- The Government of Pakistan has exempted all local NGOs that have filed applications with Economic Affairs Division (EAD) from having to sign MoUs with the EAD to conduct flood relief, rehabilitation and reconstruction activities in flood-affected provinces across the country for six months (August 2022 to February 2023).

Possible Impacts

Met Office informed that a low pressure (LPA) over upper Sindh is likely to weaken during next 12 hours. Another low pressure (LPA) area is likely to approach Sindh from 23rd August. Due to this weather system monsoon currents are penetrating in upper and southern parts of the country. Under the influence of this weather system:

- Rain-wind/thundershower (with isolated heavy falls) is expected in northeastern parts of Balochistan from 19 th to 22nd August while, in Sindh on 19th/20th August with occasional gaps.
- Rain-wind/thundershowers (with isolated heavy falls) are expected at scattered places in Khyber Pakhtunkhwa, Punjab, Kashmir and GilgitBaltistan from 20th to 23 rd August with occasional gaps.
- More rain-wind/thundershower (with few heavy falls) is expected in Sindh, south Punjab, south and northeastern Balochistan on 23 rd & 24 th August.
- Heavy Rains may generate urban flooding in Sukkur, Dadu, Larkana, Jaccobabad and Shaheed Benazirabad on 19 th / 20th August.
- Heavy Rains may generate urban flooding in Karachi, Hyderabad, Thatta, Badin, Mirpurkhas, Shaheed Benazirabad, Dadu and Sukkur on 23 rd & 24 th August.
- Flash flooding is expected in Qilla Saifullah, Loralai, Barkhan, Kohlu, Mosa Khel, Sherani, Sibbi, Bolan, Kalat, Khuzdar, Lasbella and hill torrents of Dera Ghazi Khan on 19 th/20 th and from 22nd to 24 th August.
- Heavy Rains may generate urban flooding in Rawalpindi/Islamabad, Bahawalpur, Multan, Faislabad, Lahore, Gujranwala, Peshawar, Nowshera and Mardan on 21st & 22nd August.
- Flash flooding is expected in local Nullahs of Islamabad/Rawalpindi, Abbottabad, Mansehra, Dir, Karak, Lakki Marwat, Bannu and Kashmir on 21 st & 22nd August.
- Rainfall may trigger landslides in Kashmir, hilly areas of Khyber Pakhtunkhwa, Galiyat, Murree, Chillas, Diamir, Gilgit, Hunza, Astore, Ghizer and Skardu during the forecast period.
- Travelers and tourists are advised to remain cautious during the forecast period.
- Riverine flooding in Indus and its tributaries may occur during the forecast period.

Gaps, Needs and Challenges

Food Security, Agriculture and Livestock

Needs:

- Food or cash/voucher assistance (CVA) to reduce food consumption gaps, supporting the most affected and food insecure population while restoring livelihoods and resilience.
- Construction/rehabilitation of animal shelters and irrigation infrastructure and equipment.
- Protection of remaining livestock through provision of feed and vaccinations against Peste des petits ruminants (PPR), foot-and-mouth disease (FMD) and haemorrhagic septicaemia (HS).
- Provision of seeds to restart vegetable crops and support for long-term restoration of orchards.

Health

Needs:

- Provision of essential medicine, tents, blankets, medical equipment, face masks, hand sanitizers and mosquito nets.
- Strengthening disease surveillance in flood-affected districts and mitigating the outbreak and spread of diseases.
- Monitoring the health of the affected population.
- Provision of medicines and other medical supplies.
- Targeted repairs of health facilities.
- Support for integrated outreach activities such as medical practitioners, lady health visitors, medicines and transport.

Protection

Needs:

- Psychosocial support for the affected population.
- Establishment of referral pathways for gender-based violence (GBV) and child protection (CP) cases in displacement sites and targeted districts.
- Possible relocation to safe areas and referrals to Safe Shelters/temporary accommodation arrangements.
- Dignity Kits and other non-food items (NFI) for vulnerable households.
- Scaling up assessments to identify people who may have lost civil documentation.
- Scaling up detailed GBV/CP assessments and related capacities of partners.

Gaps:

- Disaggregated data remains unavailable.
- Reliance on reporting through a single helpline.

Water, Sanitation and Hygiene (WASH)

Needs:

- More resources are needed to enable an effective and efficient WASH response. Available supplies are insufficient to cover all affected communities.

Nutrition

Needs:

- Some 71,376 children in Balochistan endure severe or moderate acute malnutrition (SAM/MAM).
- Around 11,600 pregnant and lactating women (PLW) in Balochistan require nutrition services.

Gaps:

- Nutrition services are only available in Afghan Refugee Response Plan (RRP) districts and do not overlap with the projected SAM, MAM and PLW caseload resulting from the floods: the gap is thus 100 per cent, for which some US\$3 million is required.

MUSLIM HANDS

Organization	Province	District	Items	Quantity	Areaa
Muslim Hands	Sindh		>Provision of 2520 Cooked Meals >Provision of 2520 Drinking Water Bottles >Deployment of 04 Medical Camps >Provision of 300 Mosquito Nets	7072	Food
